Parasol In-ground Base

SPECIFICATION

Our in-ground base comprises a tube sized for your parasol, a connecting plate and a base that is concreted into the ground. The tube can be removed when not in use.

Select the base according to the diameter of the parasol pole, which is either 38mm, 48mm or 61mm.

Choose the base you require using the Option view to the left of the screen, which will give you the correct product code.

Dimensions are approximate:

Length	10cm
--------	------

Width	10cm
-------	------

Depth	45cm
-------	------

Height	45cm
--------	------

Assembly required
